

Operating Systems 1 Lab 3 – Linux Commands

ls - This lets you see all the directories within the location the command line is

```
william@william-Lenovo-Ideapad-510-15ISK: ~  
william@william-Lenovo-Ideapad-510-15ISK:~$ ls  
Desktop  examples.desktop  Music  Sublime Text 2.0.2 x64.tar.gz2  
Documents  hello             Pictures  Templates  
Downloads  hello.c           Public    Videos  
william@william-Lenovo-Ideapad-510-15ISK:~$
```

ls -la : This shows you the directory where you have last been and who has access and who does not to the files in storage

[illegible]

pwd - This shows the pathway to the directory where the command line is pointing at

```
william@william-Lenovo-Ideapad-510-15ISK: ~  
william@william-Lenovo-Ideapad-510-15ISK:~$ pwd  
/home/william  
william@william-Lenovo-Ideapad-510-15ISK:~$
```

cd. - This changes the directory from where you are to where you are. If you ask me that is a pretty useless function
